From recent footprints to ghostly figures painted on stone centuries ago, Backyard Bigfoot presents startling evidence that the hairy creatures who lurk in our worlds backcountry represent more than a figment of our collective imagination. Bigfoot expert Lisa A. Shiel lays out the evidence -- physical and folkloric, ancient and modern -- to prove that Bigfoot and its kin all over the world stand closer to us than we ever imagined. From human evolution to lost civilizations, from UFOs to ancient artwork, Shiel weaves disparate threads into one incredible yet thoroughly believable theoretical tapestry -- and leaves you breathless.
