

## Advances in Comparative and Environmental Physiology

Filesize: 5.64 MB

### ***Reviews***

*Very beneficial to all category of folks. We have study and that i am sure that i will planning to go through yet again again in the future. Its been printed in an extremely straightforward way in fact it is just soon after i finished reading this pdf where actually changed me, alter the way i really believe.  
(Emmett Mann)*

Book Condition: New. Publisher/Verlag: Springer, Berlin | Although feeding is not yet been thoroughly studied in many vertebrates taxa, and different conceptual and methodological approaches of the concerned scientists make a synthesis difficult, the aim of the editors is to provide a comprehensive overview of the feeding design in aquatic and terrestrial vertebrates with a detailed description of its functional properties. The book emphasizes the constant interaction between function and form, behaviour and morphology in the course of evolution of the feeding apparatus and way of feeding both complementary and basically related to survival interspecific competition, adaptation to environmental changes and adaptive radiations. Special stress is drawn on quantification of the observational and experimental data on the morphology and biomechanics of the feeding design and its element jaws, teeth, hyoid apparatus, tongue, in order to allow present and further comparisons in an evolutionary perspective. | 1 Functional Properties of the Feeding Musculature.- 1 Introduction.- 2 Functional Properties of Individual Muscle Fibers.- 3 Fiber Types and Contractile Properties in Vertebrate Feeding Muscles.- References.- 2 Feeding Mechanisms in Sharks and Other Elasmobranchs T.H Frazzetta.- 1 Chondrichthyan Fishes.- 2 Elasmobranchs.- 3 The Shark Jaw Apparatus.- 4 Feeding behavior.- 5 Morphomechanics and function.- 6 Other Elasmobranchs.- 7 Conclusions.- References.- 3 The Pharyngeal Apparatus in Teleost Feeding.- 1 Introduction.- 2 Morphology.- 3 Role of the Pharyngeal Apparatus in Food Processing.- 4 Development of the Pharyngeal Jaws.- 5 Polymorphism and Plasticity of the Pharyngeal Jaw Apparatus.- 6 Concluding Remarks.- References.- 4 Feeding in Tetrapods.- 1 Introduction.- 2 Problems and Solutions for Terrestrial Feeding.- 3 Amphibians: Conflict and Prey Ingestion.- 4 Reptilian and Mammalian Prey Ingestion.- 5 Teeth, Crushing and Mastication.- 6 The Adductor Muscles and Their Action Patterns.- 7 Cycles.- 8 Overview.- References.- 5 Sensorimotor Processes That Underlie Feeding Behavior in Tetrapods.- 1 Behavior Patterns Related to...
