There is hardly a person in the Western world who has never heard of the almost mythical secret agent; who has never seen at least one movie or heard the famous quotation Bond. James Bond . The secret agent, originally invented by the British author Ian Fleming has almost become something like a brand: there is just one Bond out there. Or, in this case seven. Ever since Ian Fleming published the first novel starring who would become the world s most famous spy in the twentieth and twenty-first centuries, there have been many different interpretations of the character that actually is James Bond. The factors that played a major role in this matter were dependant on a number of different aspects. Even though it is undisputable that, in the case of the movies, one of the factors is always the actor, there are a number of different aspects to be taken into consideration: cultural and historical ones. 24 pp. Englisch.
