By Graham Steell

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Text-Book on Diseases of the Heart It has been the endeavour of the writer to give in this book an accurate account of the clinical aspect of heart diseases, along with a description of the principles of the treatment of the disease. With regard to the former object, it is claimed that the account given is drawn from life, and that the influence of authority has been excluded as much as possible. With regard to the latter object, it is claimed that the statements made do not go beyond the facts of actual experience at the bedside. The book is published at a time when there is immediate prospect of a great advance in our knowledge of the anatomy, physiology and pathology of the heart, which promises to lead to much improvement in the application of available remedies. That there has been such advance is the result of laborious investigations of scientists and clinicians alike, among whom may be mentioned Keith, Gaskell, and especially Mackenzie and Wenckebach. Thus it became necessary to indicate, in the...
